Mojave High School Abstract 2004-05

The GEAR UP program at Mojave High School (MHS) will offer academic support by providing services to approximately 90 students making the transition from high school to postsecondary educational institutions. The motto for MHS is “Promoting Achievement, Creating Success”. The mission of MHS is to provide a safe learning environment that will empower students to develop excellence, pride, respect, and the skills necessary for future success.

The GEAR UP program will implement academic programs, and after-school tutoring programs for scholastic enrichment. Tutors and mentors will be available to augment academic success. The GEAR UP program at MHS will provide professional training to faculty and staff, assisting them in skills remediation, parent involvement and professional enhancement.

Edline, an internet access program, will monitor parental involvement, student attendance, and academic progress. Information meetings will provide academic enrichment, and college and scholarship planning will be conducted for parents. GEAR UP participants will have access to college-related material via the MHS Career Center, school meetings, counselors, and district college-planning events. Participants will develop a personal plan of academic success as they navigate their future.
